5) *Open space for your quote; thoughts:*

I want to thank everyone for supporting and helping Ukraine. But until the war is over, we need your support every day. Russia is still attacking our country, some territories are still occupied, people are still dying every day, losing their homes. Nobody knows what's going to happen tomorrow. Recently Russia bombed a shopping mall with thousands of civilians inside far from the front lines. The People of Ukraine are showing exceptional bravery. It makes me angry, sad and completely ruins my feeling of safety when I see that millions of people are dying, struggling, going through scary times they don't deserve while the world can't do

5) Open space for your quote; thoughts:

The war continues, every day the terrorist country Russia tortures and kills the civilian population of Ukraine. Therefore, to tolerate Russian in the world is to support the genocide of Ukrainians. We are the front for the entire civilized world, today Ukraine is choosing democratic values and the right to freedom, fighting against the Russian totalitarian regime. We all need victory, not peace “at any cost”, so there is no need to call on Ukraine to negotiate with terrorists. Support Ukrainian medical institutions, humanitarian aid, the military and the post-war reconstruction program of Ukraine through official fundraising.

Anastasiia Koval

I am professional model and an artist, I do love taking pictures of beautiful people in a cinematic bw style. Photography is my passion for both sides - being a fashion model and a portrait photographer.

3) What's your personal wish and your need?

I do believe that the biggest wish that I have in heart is the same as all people of Ukraine have. My wish is stop russian war against Ukraine, to stop our people dying because of this cruel and unfair aggression from the russian invaders led by a mad person.

4) Which organizations should we support?

There many ways to help Ukraine. Here is a foundation managed by a brave woman I know in personal, they are doing a lot and You can help them to do more:
